CANTINA DI TRENTO

SANTACOLOMBA

Stronger than magic
Bianco Vigneti delle Dolomiti
Indicazione Geografica Tipica
Wine obtained from fungus-resistant grapes

***Santacolomba** is a real place, unimpaired in its mountain nature.*
Between sky and earth, pleasant and romantic, it invites to contemplation
It is the place where dreams become true and where dreams are stronger than magic.

GRAPE VARIETY
Santacolomba is a white wine obtained from Bronner, Solaris and Johanniter grapes; these grape varieties are resistant to the main fungal diseases and this allows us to reduce the use of phytosanitary treatments.

GROWING AREA
A good vinification and a good work in the cellar enables the wine to keep the particular characteristics of the grapes.
Santacolomba is a wine, which shows a different way in nowadays' viticulture.

WINEMAKING
The grapes are harvested in September. They are de-stemmed and crushed and the juice is then separated from the skins; thereafter the juice undergoes the fermentation at the temperature of 17/19° C in stainless steel tanks. Once the alcoholic fermentation is over the wine is chilled to favour a natural clarification. The wine is then matured on the fine lees to exalt its aromatic character. The wine is bottled at the end of spring.

DESCRIPTION
Pale straw yellow in colour, fruity on the nose with notes of citrus fruits, which follow through on the palate. On the mouth the acidity is emphasised by the structure. Long on the finish, with a light bitter note, reminiscent of chestnut honey.

PAIRING
Ideal as aperitif, it goes very well with hors d'oeuvre, sea fish and fresh cheese.
Serving temperature: 11-12 °C
Alcohol content: 12% vol.

Residual sugar	ca. 1 g/l
Total acidity	ca. 6,50 g/l
Production area	hillsides around the town of Trento
Exposure	south/south-west
Soil	poor, rich of bones
Trellising system	Guyot/simple pergola
Quantity of vines per hectar	3000
Medium age of the vines	10 years
Yield per hectar	63 hl/ha
Time of the harvest	September
Allergens	Contains **sulphites**
